## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Title: Liquid crystal display housing with LED's formed below the lower surface of the extending FPCB inset into openings of the housing.

**Claim 1-11** are allowed.

The following is an examiner's statement of reasons for allowance:

Kang et al (US 20020027634) discloses (Figure 4) a LCD panel (140) formed within the housing (160), the LCD panel comprising a display area (above LC panel), a peripheral circuit (Figure 3, 120) formed on the LCD panel (140) and a flexible printed circuit board (112) formed on the edge of the peripheral circuit area of the LCD panel (140) and FPCB having an extending portion formed below the lower surface of the extending portion.

Kang et al does not disclose the use of an LED light mounted on the FPCB and having openings formed in the housing for the LED.

Saito et al (US 20030164903) discloses (Figure 1, Page 1, [0007]) LED's (LED1, LED2) on top of the Flexible Printed Circuit Board (PCB) .

Art Unit: 2871

The prior art do not disclose where the FPCB having an extending portion and a plurality of light emitting diodes formed below the lower surface of the extending portion where the LEDs of the FPCB would be inset into corresponding openings of the housing when the extending portion of the FPCB crosses the edge of the LCD panel and being deflexed to the lower surface of the housing.

Upon further consideration, the Examiner believes the previous rejection relies upon an improper amount of hindsight reasoning. Therefore, the previous rejection are withdrawn and the present invention is now considered to be patentable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lucy P. Chien whose telephone number is 571-272-8579. The examiner can normally be reached on M-F 8:30-5:00.
